

 **New Release**

SureFeed

Pre-Made Pouch/Bag Feeder

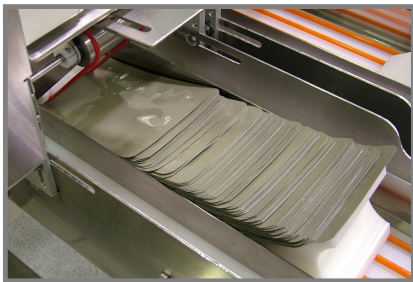

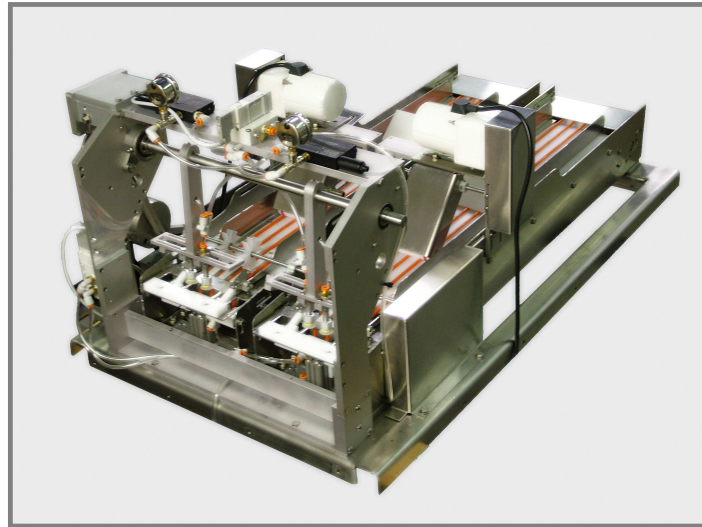

MDC Engineering's pouch feeder is designed to feed pouches to intermittent motion horizontal fill, seal machines. The SureFeed accommodates various types and styles of pre-made pouches and bags. Pre-made pouches are manually loaded into the conveyor magazine and automatically fed and transferred to the packaging machine. The machine is designed to easily adapt to any manufacturer's existing vertical fill, seal machine and requires no separate operator intervention to stop and start.

Features

- Precise, repeatable placement
- Wash down design
- Adjustable pouch width and length
- Allen-Bradley PLC
- Friction belt conveyor
- Pouch level feed control dancer
- Positive vacuum suction cups
- Independent feeding lane activation
- Automatic lane feed fault

Multiple Bag Sizes and Styles

- Contoured Stand-Up
- Gusseted
- Quad Seal
- Flat Bottom
- 3 and 4 Sided Seal Styles
- Zipper / Slider

Options

- Single or multiple lane magazine
- Different pitch available
- Programmable positions
